

# CIRCULAR.

---

72

*To all Presiding Elders, Pastors, Sunday-school Superintendents, and Friends of Education in the Methodist Episcopal Church.*

The year 1884 marks an important epoch in the history of our beloved Church—the hundredth year of its existence. By universal consent, and by the action of our highest authorities, it is proposed to celebrate our first Centenary of Church organization by special religious exercises and benevolent contributions.

For many reasons, it is specially important to give our children and youth a prominent part in the Centenary celebration. It has, therefore, been deemed in the highest degree fitting to make an extraordinary effort to enlist ALL our Sunday-schools, and, so far as practicable, the churches with which they are connected, in a simultaneous Centenary Children's Day celebration on the second Sunday in June. If this can be done, the first recommendation of the Board of Bishops will be complied with, and a good beginning secured for all that is to follow. To whatever extent this is neglected, the avenue to complete success is blocked at the outset.

Hence, it is desirable that broad and liberal views may every-where prevail, and that whatever local objects may be contemplated further along, all will unite to do something—what they can—for this common and connectional interest.

We feel confident that wherever this matter can be properly understood, generous and zealous co-operation will be regarded in the light of a privilege ; a privilege, in fact, which can never be enjoyed again by any person now living. In this view, we earnestly appeal to all who are addressed at the head of this Circular, to aid in their several spheres by explaining the facts and encouraging timely and judicious preparation. To give all full data and the best of reasons for such action, we refer, in the annexed report, to published testimonies from all parts of

the Church as to the pleasure and profit of the Children's Day observance, and add many practical hints and helps as to the most successful modes of conducting its services.

We therefore urgently make the following requests of all :

1. A prompt and careful examination of this entire pamphlet. It is sent out early for many important reasons, of which a few may be stated : (1) Experience has proved the necessity of beginning preparations earlier for Children's Day than has been usual heretofore. (2) On the plan of a gratuitous sending out of programmes, it is essential that orders, especially from a distance, come in early—during April, as far as possible. It is not deemed safe to print very largely in advance of orders ; but for printing, folding, counting, and posting, time is required as well as for transit in the mails. (3) Experience has also shown the necessity of sending out our report and circular in advance of the Spring Conferences, before the addresses of some thousands of pastors are changed and held in suspense for a series of weeks. (4) With the best possible efforts on the part of the office, some of our documents fail of their destination. On the present plan, time is given for special application for them from persons who do not receive them before the 20th of March.

2. Preserve carefully for reference the Report and Manual, not only till Children's Day, but for future years, since it is not designed to duplicate the latter for a long time to come, if ever, although it will be on sale as long as demanded.

3. Embrace the first opportunity for consultation with Sunday-school superintendents, and pastors and wherever desirable or necessary, with other official members of the church, so as to enlist their sympathy and help.

4. Presiding elders are desired to speak of the subject in all Quarterly Conferences, giving their extra copy of the Report where it will do the most good, and sending us the address of preachers whose names are not in the Minutes, and of other persons who ought to be supplied.

N. B.—Owing to the great expense involved in sending out documents so large and in so great numbers, we deem it only right to suggest that economy in their use which will enable

each copy to do the greatest practicable service. In this view, we ask each recipient to pass his copy round among such persons as ought to see it. Our great anxiety is to enlist that universal co-operation which the circumstances of the case and the general interest of the Church call for; and for that object we will liberally respond to additional orders from such of our co-workers as will put forth their own best efforts to help our cause.

5. These remarks refer equally to the ordering of Programmes and Red Letters. We desire you to apply for any number that will be really helpful to the objects in view, but for none to be wasted. In the same degree that it is right to contribute to the Children's Educational Fund, it would be wrong to waste any portion of the means employed to promote liberality toward it. These printed helps are sent out at a great expense, for the important object of promoting, throughout our wide connection, UNIFORMITY OF EXERCISES on the best plans and with the best aids that the resources of the Board can command. The Programme for this year is double the size of that of last year, and in larger type. In response to many requests it is divided into three parts, and thus adapted to morning, afternoon, and evening services, each capable of being elongated, when desired, by addresses or other exercises from the "Manual." At the same time it is equally adapted to being rendered in two services, or even in one. In this way, it is made to embody the best suggestions of numerous correspondents in all parts of the country, and the co-operation of some of the best writers for Sunday-school exercises. Thus studiously and laboriously prepared, it is made just as available to the poorest as to the richest school in all the land. While it is thus sought to promote the convenience of our friends by furnishing them the best Programmes and Helps that can be prepared, we rely on them to see that the Board is not the loser by the arrangement.

Although ordered on the same sheet, yet owing to different sizes, separation in the mails, and other circumstances, the two publications will rarely arrive at the same time. Moreover, as the postage is governed by weight, packages have to be put up in advance and combined so as to fill orders.

Hence, packages of the same kind are liable to arrive at different times. Remembering these facts, our friends may accept the arrival of any portion of an order as a pledge that the whole is coming soon.

 By ordering early, anxieties on both sides are relieved, and cases of the actual failure of orders, at either end, can be remedied without unnecessary correspondence.

Remember that orders for Programmes and the Letters to Children can *only* be filled at New York. They should all be sent, and all collections returned, to D. P. Kidder, Corresponding Secretary, 805 Broadway, New York city.

Special pains have been taken to give credit in the list of receipts for every collection sent here during 1883, and *to every Church and Sunday-school* thus represented, we return hearty thanks. Where returns were made in bulk through Conferences or Book Agencies, it has been impossible to give individual credits, though the co-operation is fully appreciated.

Having done so grandly in 1883, let us all be encouraged for unanimous and liberal effort during our Centenary year. We count confidently on all who have acted with us heretofore. The one thing now wanting is to bring up the reserved forces. Let ALL now prepare to take their full part in the Centenary Children's Day movement, whatever may have hindered in the past. The record to be made in 1884 will be handed down to the coming centuries, and we feel intensely anxious to have every one of our churches and Sunday-schools now existing well represented in it. In nothing that our Church will undertake at this period is her common honor more directly involved. Children's Day, for the grand objects herewith explained, is peculiar to us as a Church, and as other Churches are seeking to follow our example, we are called upon to render that example as perfect as unanimity can make it. We can never know the full power of our Church for good except as the result of united endeavor.

Yours in the Gospel,

M. SIMPSON, *President,*

D. P. KIDDER, *Cor. Sec'y,*

*Of the Board of Education of the M. E. Church.*

805 BROADWAY, NEW YORK, 1884.

# REPORT

OF THE

## Board of Education of the Methodist Episcopal Church.

JANUARY, 1884.

---

### ANNUAL MEETING.

THE annual meeting of the Board of Education of the Methodist Episcopal Church, held in New York, November 21, 1883, was an occasion of peculiar interest. From the reports of the Corresponding Secretary and the Treasurer, the following facts appeared: The receipts of the financial year, just closed, from Church and Sunday-school collections, legacies, special donations, and the repayment of loans, reached the handsome amount of \$32,718 42. As compared with that class of receipts for the year ending in 1882 the advance was \$14,091 86; and \$30,639 18 as compared with the same in 1880. Of the receipts of 1883 \$28,000 were credited to the Children's Day collections, as compared with \$15,000 the previous year.

An incident of special significance and interest was stated in the fact that a lady had just paid in the sum of \$1,000 to endow a fund in memory of a deceased son.

As a result of the growing liberality of the Church and its friends toward the objects of the Board, the Treasurer will be enabled to report to the coming General Conference an aggregate investment of more than \$150,000 in the joint funds committed to his charge. It deserves to be remembered that the aggregate of these funds in 1868 was only \$65,829, and that since 1873 the Board has disbursed in aid of students not less than \$86,000.

Much encouragement was derived from the fact that nearly all of the Annual Conferences of the Church had recently passed favorable and, in many instances, enthusiastic resolu-

tions welcoming the Board to its proper place among the great connectional agencies of the Church.

On the recommendation of a committee, appointed a year ago, it was resolved to request the General Conference to authorize such a modification of the Charter as will allow of the future direct appropriation of such a proportion of the annual offerings to the Children's Fund as may be necessary to provide suitably for the aid of all properly recommended students.

For that object, during 1884, an appropriation was made of \$10,000, together with all amounts that may be received from the repayment of loans, and from special donations or deposits for the purpose named.

The following officers were appointed for the ensuing year, namely: President, Bishop Simpson; Recording Secretary, the Rev. J. W. Lindsay; Corresponding Secretary, the Rev. D. P. Kidder; Treasurer, O. Hoyt.

---

### CONDENSED HISTORY.

As this Report will reach many who have heretofore known little of the origin, development, and work of this Board, it is deemed proper to present in this connection a brief historical synopsis, which may serve as an answer to questions that will naturally arise in thoughtful minds. For convenient reference it is given in the form of chronological statistics.

**1865.** The raising of a General Educational Fund, and also of a Sunday-School Children's Fund, officially proposed by the General Centenary Committee.

**1866.** Collections made for both those objects during the Centenary celebration of the Methodist Episcopal Church.

**1868.** The Central Centenary Committee suggested to the General Conference the propriety of taking, in all our Sunday-schools, a collection in aid of the Children's Fund once a year on a given day. The Board of Education instituted by the General Conference.

At the General Conference of 1868 it was found that the "Children's Offering for Education," made during the Centenary celebration of 1866, amounted to \$56,674 40, and the "General Educational Fund" amounted to \$9,155 32; total, \$65,829 72.

**1869.** Charter of the Board enacted by the Legislature of the State of New York.

1870. The Board of Education proposed to the Annual Conferences that the second Sunday in June of each year be celebrated as Children's Day, the collection to be given to the Children's Fund.

1872. It made the same proposition to the General Conference. The General Conference sanctioned the proposition by enacting the following disciplinary rule :

"It is recommended that the second Sunday in June be every-where observed as 'Children's Day,' and that wherever practicable a collection be taken in the Sunday-school in aid of the 'Sunday-School Fund' of the Board of Education."—*Discipline of the Methodist Episcopal Church*.

1881. The Ecumenical Council of London, on the representation of delegates from the Methodist Episcopal Church, sanctioned our conception of the objects and importance of an Annual Children's Day. It embodied in its official address to twenty-five millions of Methodists in various part of the world the following precept : "Let one day in every year be faithfully observed as Children's Day."

## ANNUAL RECEIPTS OF THE BOARD OF EDUCATION.

From Church and Sunday-school collections, legacies, special donations, and the repayments of loans

1873.....	\$1,490 68	1879.....	\$2,491 59
1874.....	4,620 90	1880.....	2,079 24
1875.....(net)	2,141 28	1881.....	9,256 86
1876.....	887 26	1882.....	18,026 56
1877.....	1,994 57	1883.....	32,718 42
1878.....	565 30		

## DISBURSEMENTS IN LOANS TO STUDENTS.

1873.....	\$300 00	1879.....	\$8,217 00
1874.....	4,477 00	1880.....	8,000 00
1875.....	10,095 00	1881.....	8,000 00
1876.....	8,554 56	1882.....	11,037 00
1877.....	7,626 50	1883.....	12,000 00
1878.....	7,786 14		
Total.....			\$86,093 20

In connection with the above summary of disbursements, it is interesting to note the extent and impartiality of the distribution of aid in different sections of the Church as shown by the subjoined exhibit :

	Amounts Loaned.	Students Aided.	In No. of Inst.
New England States .....	\$13,605	149	9
Middle States.....	23,568	233	14
Western States.....	22,980	340	33
Southern States.....	21,263	219	20
Foreign.....	1,090	32	2
Miscellaneous.....	4,905	35	4
	<u>\$87,411</u>	<u>1,008</u>	<u>82</u>

The difference between this aggregate and the one given above may be sufficiently explained by the fact that some of the funds of the Board have been paid in and reloaned without returning to the treasury.

By the loans above reported more than 1,000 students have been aided on a plan adapted to encourage their best efforts and to promote their highest self-respect. Through them, at least eighty institutions of the Church, including academies, colleges, and theological seminaries, have received corresponding benefits.

While the greater number of the students aided have scarcely as yet finished their course of study, it is known that at least two hundred have already entered some sixty of our Annual Conferences as traveling preachers; about thirty have become foreign missionaries in Bulgaria, India, Japan, Mexico, and South America; while on the lists of the Board remain a considerable number of choice candidates for missionary work.

**Remark.**—The workings of the Board have, in many ways, proved how very important it is for the Church to have in efficient action such an agency as this for the purpose of profiting, in the highest degree, by some of the best results of her great systems of Sunday-school, literary, and theological instruction. In no way can this be more hopefully done than by aiding youth of promise to secure timely and thorough qualifications for work as missionaries, ministers, and teachers in all the great fields of Church activity so widely opening before us. What has been done in this line, although full of encouragement, is only a faint foreshadowing of what may be done hereafter should adequate means be supplied. In every direction the demand is growing for judicious help in behalf of the struggling and consecrated talent being developed by our Sunday-schools and literary institutions. Rightly guided and cultured, this talent may become an invaluable auxiliary to promote the extension of Christianity throughout the world. If neglected, it may be lost or sadly perverted.

---

### ANNUAL CONFERENCE ACTION.

As intimated in the Report of its late annual meeting, the Board has derived great encouragement and advantage from the supporting action of the Annual Conferences of the Church. For the text of the resolutions passed by those Conferences during the last three years, reference is made to the local minutes of the several Conferences and to the pages of the "Manual of the Methodist Episcopal Church." In the latter they have been grouped together in the department of

the Board of Education. We have here only space for a few brief extracts, which may, however, be taken as fairly representative of the spirit of all the resolutions referred to.

The selection is made with more especial reference to the appropriate action of the several Conferences, and of the whole Church during the present year.

#### EAST MAINE CONFERENCE.

The influence of the Board of Education is felt in all parts of our land. From east, west, north, and south, come the echoes of Children's Day.

We reiterate our resolve of last year: "That the Conference urgently request every pastor to take a collection for the Children's Fund, which shall be forwarded directly to the treasury of the parent Board of Education. Especially do we urge this on account of the near approach of 'Our Centenary of 1884.' " We must be getting into line for the great movements of that year.

#### NEW YORK CONFERENCE.

*Resolved*, That careful arrangements be made in all our charges for observing Children's Day in 1884, for the purpose of securing as liberal contributions as possible to the Children's Fund for Education. Every Sunday-school scholar in the Church can be interested in the cause.

#### DELAWARE CONFERENCE.

From practical experience we rejoice in the institution and observance of Children's Day, now extensively known as the red-letter day of the Church. We, therefore, commend it to the universal attention and co-operation of our people, not merely for the purpose of securing offerings to the Children's Fund, but also as a means of awakening a deeper and more general interest in behalf of religious and higher education among the children of our families and Sunday-schools.

*Resolved*, That we hail with gladness the call of our beloved Bishops to celebrate, during 1884, the first Centenary of the Methodist Episcopal Church, and that we will do all that is within our power to comply with their recommendation. In this view we will give great prominence to the Children's Day observance and Children's Day collections in June, 1884.

#### EAST OHIO CONFERENCE.

We recommend the observance of Children's Day, and the taking of a special collection at that time for the Board of Education, to all of our churches and ministers. And we especially call their attention to making the Children's Day celebration, and the collection to be taken for 1884, worthy of the Centennial year of American Methodism.

#### DETROIT CONFERENCE.

We believe that general observance of this special day is to be encouraged, and that the contributions then laid upon God's altar will do much for the

furtherance of his work. The Board of Bishops have advised that special contributions be made during the Centenary year. We, therefore, advise that special prominence be given to Children's Day in 1884, and that liberal collections be made in all our Sunday-schools.

#### ROCK RIVER CONFERENCE.

Children's Day, coming six months after Christmas, is now recognized as the summer festival of our Church. That the second Sabbath in June should be devoted to this beautiful association of flowers, birds, and children, in the interest of education, is to us a cause of great joy and hope.

*Resolved*, That as Children's Day was a gift to the Church of the Centennial celebration of 1866, we should secure its universal observance during next year, the Centennial anniversary of the organization of our Church, and that we will strictly comply with the recommendation of the Centennial Committee, and endeavor to increase the collections on the next Children's Day. And that we will see that the funds then contributed are sacredly directed into their legitimate channel by sending them to Dr. D. P. Kidder, Corresponding Secretary of the Board of Education, 805 Broadway, New York.

#### WISCONSIN CONFERENCE.

We especially urge that during the Centennial year Children's Day be universally observed, that the programme so generously furnished by the Board be followed as far as possible, and that the work of the Board be indorsed and encouraged by every pastor and church in the Conference.

#### CALIFORNIA CONFERENCE.

We note with pleasure the increasing popularity and effectiveness of our Board of Education.

*Whereas*, The coming year is to be observed as the Centennial of the Methodist Episcopal Church, and the Board of Bishops recommend that the chief object of connectional offerings be the cause of education ; and,

*Whereas*, It is our disciplinary duty to preach at least once a year on the subject of education, to take up a collection for this work, and the observance of Children's Day ; therefore,

*Resolved*, 1. That we will make special arrangements for the observance of Children's Day in our Sabbath-schools, urging a larger collection than usual, and forwarding the same direct to Dr. D. P. Kidder, as the contribution to the Children's Fund.

While "kind words never die," and the spirit of good resolutions is a perpetual *stimulus* to noble efforts, yet good deeds actually accomplished are better than words of highest promise. In this view, we refer, with peculiar satisfaction, to our list of receipts in 1883. In that list not less than ninety-one Annual Conferences are represented in facts and figures. All

honor to the pastors and charges in each of those Conferences that have taken a practical part in the noble work of helping to build up the Children's Educational Fund of the Church. The only regret in examining that list is that so many ministers and churches lack a representation in it. That regret, however, is largely modified by the hope that, during 1884, every charge in our whole connection will take its appropriate place in the roll of honor, which we propose to print, so that it may be read by those who may celebrate the second Centenary of the organization of our beloved Church in 1984, as well as by those who may live and act during the intervening years.

---

#### CHILDREN'S DAY, 1883.

It was not till the year 1881 that Children's Day, as an institution of our Church, fairly entered into history. From that year forward it has been made the subject of annual official reports. By means of those reports and widely extending experiments, the Church is coming to appreciate more and more, not only the numerous advantages to be secured by the day, but also the privilege of that simultaneous co-operation for a grand object which in itself is an element of great moral and spiritual power.

Not every Church will find it possible to secure simultaneous action throughout so vast a field, and it is doubtful whether even our own can duplicate what it has already attained in reference to this common and popular cause. For these and many other reasons, it becomes us to make the most of the experiment upon which we have so successfully entered. That our Church is both disposed and rapidly coming to do so, will not be doubted by any who will give due attention to what has been recently published on the subject.

During the closing weeks of June last the best daily papers of the largest cities, weekly secular papers all over the nation, and especially the official weekly papers of the Church, teemed with enthusiastic notices of Children's Day celebrations. Added to this, the "Manual of the Methodist Episcopal Church," in its July and October numbers, printed not less than thirty-

two octavo pages of condensed SPECIMEN REPORTS from pastors and Sunday-school superintendents in every section of the United States, as well as from Mexico, Germany, Africa, India, and Japan.

Special reference is made to the mass of testimony which has been published in the "Manual" during the last two years, and sent gratuitously to every pastor, in the hope that it will be extensively reperused in this connection.

Every line of it would be suitable for insertion here did space allow. Indeed, it was at first proposed to thus insert it, but on the whole, it has been thought that the list of Children's Day collections as actually paid in, and tabulated by districts and Conferences, would sufficiently serve the same purpose, and in some respects improve upon it. In the verbal reports alluded to it was impossible to represent all, but in the list of collections every church and Sunday-school is allowed to speak for itself. Examination of the list, as printed on pp. 23-52, will enable all to see how many thousands have thus spoken, and with what eloquence of figures. It will also make obvious the extent to which others, not yet on the list, have fallen below their privilege, which, however, it is to be hoped, they will certainly improve during this Centenary year.

Important and encouraging as are the pecuniary returns thus made for the assistance of students in our numerous schools, it is probable that, when relatively considered, they are even less in value than the moral, educational, and spiritual influences at the same time secured. But in point of fact, no human mind can fully estimate the value of either in their promise of good to the Church and the world.

It is, indeed, a happy circumstance that so much in this line has been demonstrated before the close of the first Centennial of our Church's history, so that we may enter upon our Centenary celebration now at hand, with an assured confidence of doing greater and better things in the future. All such considerations point with peculiar significance and earnest pleadings to Children's Day, 1884, asking that, by universal co-operation, it may be made better and more decisive for good than that of any previous year.

### OUR CENTENARY CHILDREN'S DAY.

It may be presumed that every minister, member, and true friend of the Methodist Episcopal Church rejoices in the success that has already been secured in connection with the official appointment and annual observance of a Children's Day on or near the second Sunday of June each year. For similar reasons, it is to be hoped that all such persons will be unanimous in the desire to make that observance increasingly interesting and successful the present year. On this ground we now venture a special appeal for timely and efficient co-operation from ALL. So universal has been the satisfaction of those who have hitherto entered zealously and discreetly into this observance, that we deem argument in their case superfluous. But since it appears, from our list of the charges, which co-operated in the collection of last year, that a much larger number have hitherto failed to co-operate, it appears that the grand *desideratum* now is to enlist the latter in the grand movement proposed to mark the Centenary of our Church organization. In behalf of that enlistment we confidently urge the following motives and considerations :

1. *The honor of the Church.* For good and well-considered reasons the Church, in its highest councils, has appointed this peculiar observance, appealing thereby to our spirit of connectional unity and the efficiency of our connectional organization. What has already been accomplished by incipient and partial effort has been sufficient to show that by universal co-operation results are attainable that will secure the highest credit to our system of Church action as well as to our zeal and liberality in the cause of Christian learning. While, therefore, the help of every minister, church, and Sunday-school is needed toward attaining the results desired, the neglect or omission of any to help will, however undesignedly, yet actually, detract from the full success that the Church and the public have a right to expect.

2. *The local benefits possible.* So definite and so general is the testimony as to the local advantages derivable to any Sunday-school from a well-planned Children's Day observance, that the inference is unavoidable that all who are prevented from joining in one are deprived of a peculiar privilege that the Church has planned for them. Not small, therefore, is the

responsibility of any whose inattention or opposition prevents the enjoyment of the Children's Day anniversary in any charge.

3. *The educational benefits attainable.* From the days of Wesley, Coke, and Asbury, our Church has been an avowed and practical promoter of Christian education. She has now, as the result of many experiments, struck a form of co-operative action in behalf of that cause which challenges universal sympathy, and gives promise of the grandest results. None, therefore, should deprive themselves or others of the privilege of co-operation with it.

4. *The corresponding benefit to all other good causes.* Many persons have hitherto stood aloof from the Children's Day movement in a vague apprehension that its success would in some degree diminish the receipts of some other good cause. Facts show the opposite, and demonstrate that the inspiration imparted by an enthusiastic Children's Day service infuses new life, zeal, and liberality into all Church and Sunday-school work.

Besides, the uses of the Children's Educational Fund are directly helpful, if not essential, to foreign and home missions, to the cause of the freedmen, and to all our institutions of learning; while if they do not tend directly to Church extension, they do what is more important by promoting the proper future ministerial supply of churches built and building.

Corresponding to the above motives, it is greatly to be desired that the habit in some churches of diverting the proceeds of the Children's Day collection to some other object should be promptly changed. In reference to this subject the remarks of the editor of "The Christian Advocate" deserve to be universally read and heeded:

Do not defraud the Board of Education by observing the day and keeping back the collection for home uses. What you give to this cause will come back to you some day in the minister whom you will love to hear. It is a very poor way to train up children to be good Methodists, to teach them that a local Sunday-school will treat with contempt the instructions of the Church, and the whole effect of inspiring them with sympathy with the work of the ministry and the Church is lost by the grasping local spirit.

Observe the day, explain what the collection is for, gather it, and be assured that in your subsequent appeals you will have, not the less, but rather the more, for home work. Is not this good sense and good Methodism? None who know the facts can hesitate to encourage all our Churches to take the collection.

In addition to the afore-stated and many kindred considerations, a special reason for making the Children's Day of 1884 an occasion of extraordinary interest and liberality is found in the position providentially assigned to it. In accordance with the episcopal plan, and in harmony with the circumstances of the year, it is to serve as general introduction to a series of Centenary efforts to be made throughout the Church.

As all know the importance of good beginnings, and also how much will need to be done to thoroughly arouse public attention to the sentiments and efforts appropriate to this Centenary epoch, all ought to perceive how desirable it will be to have a simultaneous movement made throughout the Church, not later than the second Sunday in June, as a preparation for what may follow between that period and the close of December ensuing. If, in this connection, we remember the prophetic promise, "a little child shall lead them," and in accordance with it encourage the children of the whole Church to do grandly for the Children's Educational Fund, we may expect other efforts in the Church to be toned up to a corresponding liberality. On the other hand, we may justly fear that a withholding of more than is meet from this initial movement will tend to poverty, if not failure, in what by some may be thought greater enterprises. Let us follow the Lord's order of action—first feed the lambs, then the sheep, and expect with confidence God's blessing on all our work. In harmony with that order, is the official advice of our whole Board of Bishops: "We commend to the liberality of the Church, first, the Board of Education."

---

#### PLANS.

The Board of Education has already practiced a large liberality in sending out its publications on a scale of free distribution never known to have been ventured before. Encouraged by results, and feeling that the occasion now pending calls for an example of the increased liberality which it solicits from its friends, it plans still greater things for this Centenary year:

1. The published report on Children's Day, issued in 1884, will be greatly enlarged both in form and extent so as to give

to all who receive it a more adequate idea of the importance and promise of the work which the day and its services are designed to promote.

2. The various circulars and specimens heretofore sent out in separate papers will, so far as practicable, be embodied in the report for permanent reference and preservation. The exceptions will be the return envelope, the gratuitous order sheet, the blank for reporting collections and orders for medals, and also the Red Letter to the children.

On the plan stated, the Centenary Programme for Children's Day, and the Manual of Hints and Helps for the observance of the day, are to be considered as a part of the report, though designed to be printed separately for general use.

3. Two copies of the report and one set of the accompanying papers will be sent to all pastors, whose address is known, during the months of February and March. One of these is, in all cases, designed for the Sunday-school superintendent, and the arrival of the documents is meant to suggest an immediate conference with all properly concerned in the matter, as to plans.

 Any pastor or Sunday-school superintendent failing to receive the report and documents by the 20th of March is invited to apply for them.

4. The early ordering of children's Letters and Programmes is **ESSENTIAL** to the success of our plans. Our chief embarrassments last year, and the disappointment of some, arose from delay in ordering. The whole matter is better understood now, and specially the fact that the official programmes are *only* issued from New York.

5. Besides the specimen bound up in the report, no copies of the "Manual of Hints and Helps" will be issued gratuitously. Persons wanting more copies of it may procure them of the Book Agencies of the Church, or of the Board of Education, by remitting the price as printed on the title-page. As pains have been taken to embody in the said Manual all that up to this time is known to be strictly relevant and helpful to the Children's Day observance as practiced in our Church, it may be expected to serve its purpose for several years, and should, therefore, be carefully preserved. Meantime the con-

tribution of any highly meritorious and well-tested matter is solicited, to be held in store for future use. All, however, should be on their guard against irrelevant and not especially suitable articles, whether musical or otherwise, that may be put forward under the guise of novelty. The growing popularity of Children's Day is certain to call out more or less competition in the line of so-called Children's Day publications. But our friends can rely on being furnished by our official press with all that is of real value in adaptation to the wants of our own Church, and the objects we have in view. As the observance in question originated with our Church, and has attained among us proportions far in advance of all that is outside of it, it becomes us not only to maintain our advanced position, but also the dignity and progressive interest appropriate to its peculiar design.

It is hoped and believed that, in the various ways and by the various means proposed, the closing year of our first century of Church organization and action will not only be marked by the richest religious influences, but also by grand and far-reaching results in behalf of Christian education. There is an inspiration in the very thought that a Church which had no organized existence one hundred years ago—there then being no Sunday-schools in the land—will be able, in 1884, to put into line, under the banner of the cross and of Christian education, some two millions of Sunday-school scholars and teachers, supported by two millions more of interested parents and friends. The interest of the Centennial Children's Day will also be greatly enhanced by the fact, that its observance will not only extend all over our own country, but also to the foreign countries in which our missions have been planted around the world.

---

#### CENTENARY MEDAL OF THE METHODIST EPISCOPAL CHURCH.

FROM remote ages it has been customary to commemorate great events by the coinage of medals, to be handed down to coming generations. In conformity with a custom of such obvious propriety, and in response to a widely prevailing desire, the Board of Education has issued a HISTORIC MEDAL, designed to be jointly commemorative of the organization of

the Methodist Episcopal Church in 1784 and of the celebration of its first Centenary in 1884.

All proper efforts and expense have been employed to produce in this medal one of the most valuable and attractive souvenirs ever prepared for popular dissemination. Both in size and appearance it resembles the American two-eagle gold piece. On one side it bears the head of BISHOP ASBURY, as representing the Episcopacy of the Church at the period of its organization, and on the other that of BISHOP SIMPSON, as representing, by seniority, the present Board of Bishops of the Methodist Episcopal Church. Each medal will be neatly pierced and ribboned. It will thus be adapted to wearing upon the neck or on watch-guards, or being otherwise suspended to exhibit both sides at once. Each medal will also be neatly boxed, for sending by mail and for permanent preservation. On special request, medals not pierced will be sent.

While this medal will have a special charm and a distinctive educational value for children and youth, it will be no less desirable to adults. Indeed, many distinguished ministers and other persons have already indicated a desire to possess it for themselves and their families.

#### TERMS AND PLAN OF ISSUE.

This Centenary Memorial Medal has been planned in the interest of the whole Church, and will have an increased value in its equal adaptation to all localities and its prospective dissemination, not only throughout the entire United States, but in all countries to which the Methodist Episcopal Church and its friends have gone. It is, and will remain, the only official and properly representative medal issued by the Methodist Episcopal Church to commemorate the Centennial epoch of its organization. Its issue will be exclusively in the interest of the Children's Educational Fund of the Church, which also extends its benefits throughout the land and world.

*This medal will be furnished to all persons, young or old, who will send one dollar each to the Children's Educational Fund.*

Its chief place of issue will be from the head-quarters of the Board of Education, at 805 Broadway, New York city, where all orders for it must be addressed to Rev. D. P. Kidder, Cor-

responding Secretary. There are many controlling reasons for this arrangement, of which it is sufficient to state one: It is only intended to strike as many medals as are ordered.

Let it then be borne in mind that the historic medals of the Church are not to be offered for sale as merchandise. No one will be able to purchase them in stores or in markets. Moreover, the present year is the one period in which to secure them. Hence, the necessity of prompt and systematic efforts to introduce the Centenary Medal of the Church to the attention of all who may desire to possess it, or procure it for others. That such efforts may be extensively made we invite the immediate co-operation of pastors, Sunday-school superintendents, and others, in the way of sending for specimens as soon as practicable after receiving this notice. That may be done separately or in connection with the application for the Centenary Children's Day Programme, which will be subject to gratuitous order after the month of February. The Board last year sent out Programmes, Red Letters, and other printed matter freely, and with postage prepaid, at a very great expense. It is preparing to do similarly this year on a still more expensive scale. Its officers, therefore, think that it will be a graceful and a proper thing for their friends throughout the country to respond to this liberal policy by ordering medals promptly with a view to promoting their extensive circulation. This co-operation, therefore, they earnestly invite. It will be found practicable every-where, and is indeed greatly favored by the present low rates of postage and the ease with which postal orders and postal notes can be secured. In either of these forms remittances can be made with perfect safety from all parts of the United States. We, therefore, desire to impress upon our friends, far and near, the fact that, upon their generous and general acceptance of the above invitation, the success of our medal scheme will, in a large degree, depend. While the medals ordered as specimens will be the property of those who secure them, their owners may have the satisfaction of using them to interest others in a good cause.

If any shall feel free to secure and promote the medal subscription, without having seen specimens in advance, we trust that they will be equally satisfied in the end. But we prefer

that all should know just what has been prepared as a remembrancer of anticipated liberality in connection with a great occasion which will never come again to persons now living ; and we feel confident that wherever this beautiful token can be seen it will be wanted in large numbers. Let us have the general and interested co-operation of our pastors and Sunday-school workers, and many thousands of persons in every part of the Church may share the joy of possessing in common a pledge of mutual sympathy and a reminder of noble efforts for a grand cause.

If any prefer to aid the educational funds of the Church by direct donation, their gifts, both small and large, will be cordially welcomed and duly acknowledged. But to those who only feel able to give to the amount of a single dollar, the Board of Education, on this Centenary occasion, tenders the return of its HISTORIC MEDAL. This medal is sure to grow in value as future years shall roll on. It will not only remain a beautiful souvenir of two great historic events a hundred years apart, but also as an imperishable representation of the great and representative men whose heads it bears, but whose portraits were never before enshrined in this form of art.

It was at first proposed that no medal should issue except on the actual payment of one dollar, given or collected. But, when it was considered that some work must be done, as a means of bringing the attention of large numbers of people to the privilege of securing this peculiar token within a limited time, it was decided to make the following offer :

*Any Sunday-school scholar or teacher who will secure, in payment for medals or otherwise, ten dollars for the Children's Educational Fund, shall be entitled to receive one medal gratis.*

This is not an offer to furnish eleven medals for ten dollars, but rather to reward diligent workers in a good cause by a token which they will prize more than money, and which some may only be able to secure by personal efforts in behalf of an object commended by our Board of Bishops to the whole Church as of the *first* importance. Hence, whenever the eleventh medal is claimed for ten dollars sent, the name of the canvasser should be sent also. A special list will be kept, and may possibly be published, of all who thus

earn complimentary medals. Certificates for canvassers will be furnished on application.

As the money received for medals will not be a *net* gain to the Children's Educational Fund, owing to the necessary deduction of the cost of manufacture, postage, and expressage, it is deemed necessary to keep an account of it distinct from that sent for the usual Children's Day collection, though both may be remitted in the same draft or postal-order. A form of report from each charge will be furnished, making this plain, and, corresponding to it, a double column of receipts will be published, giving both classes of credits side by side. In this way it will be shown, at the end of 1884, both what any given charge in the Church contributed as its Centenary Children's Day collection, as such, and what it forwarded for medals, not only in connection with the Children's Day remittance, but at any time during the year. Possibly also a third column may be added, in which to state the number of successful canvassers.

By the above statements we have sought to make this whole matter clear in all its details. Should any point involved seem doubtful or obscure on the first reading, a careful re-perusal is invited.

It only remains to add a few practically important items :

1. Let all who order medals state plainly the post-office, the county, and State, to which they wish them sent.

2. While every effort will be made to expedite the delivery of all medals for which the cash and a proper address may be sent, yet patience is invoked should they not arrive as soon as may be desired. Specially will this be necessary in immediate sequence of Children's Day, when it will be impossible to fill all orders at once.

3. The first thing to be done in all cases where collections and remittances for medals are sent to the Corresponding Secretary, will be to return an official receipt for the cash received. After that, the medals duly ordered may be confidently looked for in course.

4. Should not the official receipt arrive within a proper time, notice should be given as to how and when the money was forwarded.

5. When medals are ordered apart from collections, a prompt posting of said medals will be deemed a sufficient receipt.

N. B.—It will greatly add to the interest of next Children's Day if a large number of the Centenary Medals can be secured in advance for distribution as a part of the exercises of that day.

But, with all that may be done in advance, it is foreseen to be impossible to arrange effectively for completing the delivery of medals, or even of the subscription for them, before Children's Day. Indeed, practical advisers suggest that probably the greater number of subscriptions will be made in connection with the exercises of that day. In all such cases, it will be well to plan for a special future occasion for their public presentation to subscribers, possibly in connection with some other Centennial service.

On the ground of the intrinsic beauty and value of the medal itself, it is in fact expected that, wherever specimens are delivered in any place, more will be wanted. Hence, our arrangements are made for their delivery during the whole year, and we shall be all the better pleased if the demand actually culminates in Christmas week of the hundredth anniversary of the organization of the Church and of the election of Bishop Asbury to the Episcopacy. The truth is, that, owing to the vast extent of our Church, connectional arrangements of this kind have hitherto largely failed for lack of time. We therefore propose, in this important case, to avoid that error by beginning early and working diligently throughout the entire year.

 On the basis of last year's experience, it is advised that a general distribution of the Red Letter to the children be made not later than the third Sunday in May, with full previous explanations in Sunday-schools and congregations.

## RECEIPTS OF CHILDREN'S DAY COLLECTIONS.

ARRANGED BY CONFERENCES AND DISTRICTS.

N. B.—A dotted line across the amount column in the list of any Conference indicates that the preceding sums were received prior to Children's Day, 1883, but too late for the previous Report.

N. B.—For the credit of remittances received at New York later than December 31, 1883, (with a few exceptions, inserted while the type of the above list was being set,) see our next Report. We request our friends, so far as possible, to send in the collections of each year within the year, in order that they may be promptly acknowledged in our annual Reports.
